

## Global Challenges Local Solutions European Grant Competition

### 4<sup>th</sup> GRANT ROUND GUIDELINES

#### ABOUT THE PROGRAM

Local communities across Europe are confronted with a wide range of social problems, ranging from air pollution and unequal access to education, and on down to poverty. We believe that the best way to solve such problems is to act from the bottom up – this solution involves the whole community and that makes the community eager to act for the common good.

Sometimes local communities need support – a guide who will tell them how to organize their activities in the best way, where and how to look for funding and how to deal with obstacles. The role of such a guide is played in many communities by community foundations (CFs): organizations focused on supporting activities of local communities.

There are approximately 650 community foundations operating across Europe. Thanks to the enormous amount of work, local communities in Europe are empowered in diagnosing crucial social issues and in joining forces with various stakeholders to tackle them. In this way they successfully make changes at the local level, while also contributing to the process of global problem resolution. How? Due to each issue that is being faced at the local level being reflected at the global level. In other words: because local communities across Europe face similar problems, from the broader perspective these can be constructively viewed as global problems.

This is why the United Nations, along with different stakeholders, introduced the idea of Sustainable Development Goals (SDGs), otherwise known as the Global Goals, which form a universal call to action to end poverty, protect the planet and ensure that all people enjoy peace and prosperity. SDGs can establish a common language for all organizations to communicate about similar activities.

**Global Challenges Local Solutions Fund** is the first fund which connects CFs and SDGs. It is a grantmaking program that supports community foundations throughout Europe to address global challenges on the local level. It was set to provide them with additional resources that can improve local initiatives. The Fund focuses on initiatives referring directly to SDGs. The Academy wants to increase by 2030 the number of CFs (approx. 300) which are aware and committed to developing global problems on the basis of SDGs. Meanwhile: CF should learn about SDGs, map the SDGs to the local needs, promote SDGs, build local SDG coalition, stimulate action from citizens and NGOs, etc. A useful, 10-step guide for community foundations interested in engaging with the SDGs is provided by the Council on Foundations (USA) in their report “Local Leadership, Global Impact.” (2018, [report](#))

Global Challenges Local Solutions Fund has already collected a number of **inspiring examples** on how the civil society can contribute to developing the SDGs. Download the **brochures** and find out more: [I and II round](#), [III round](#).

Up until now, we distributed 29 grants for the total amount of approximately 500 000 USD, to local organizations across Europe.

The more projects of this kind are implemented under our program, the more we will be able to involve local communities in solving global problems at a local level and make them aware of SDGs' importance these days.

In the current situation of an ongoing coronavirus pandemic, which is an extraordinary test for all of the humanity, community foundations have a huge role to play. As they are close to people on a local level, they can serve as both a source of information and a refuge of peace in these difficult days. The needs arising from the challenges related to SDGs have been reinforced. Achieving the Goals will be more important, but also more difficult. As the situation is very challenging and the approach to SDGs is changing ([United Nations Report - Responding to the socio-economic impacts of COVID-19](#)), in the current Grant Round the Academy has decided to focus on four SDGs that were most affected by the pandemic of coronavirus. Namely: GOAL 3: Good Health and Well-being, GOAL 4: Quality Education, GOAL 10: Reduced Inequality and GOAL 1: No Poverty.

## ORGANISATION AND AIMS OF THE COMPETITION

1. Global Challenges Local Solutions European Grant Competition (Competition) is organized by the Academy for the Development of Philanthropy in Poland (ADPP) within the Global Challenges Local Solutions Program.
  2. The Global Challenges Local Solutions Program is co-financed by the Charles Stewart Mott Foundation.
  3. Competition was established in order to support grass-root initiatives, run by community foundations together with local communities, aimed at solving global challenges at the local level.
- The total amount of up to 150,000 USD will be awarded within the 4<sup>th</sup> grant round.

## TARGET GROUP

1. Applications to the Competition may be submitted **only** by **community foundations** (Applicants), registered and operating in the following countries: Albania, Andorra, Austria, Belgium, Bosnia and Herzegovina, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Georgia, Germany, Greece, Hungary, Iceland, Ireland, Italy, Kosovo, Latvia, Liechtenstein, Lithuania, Luxembourg, Macedonia, Malta, Moldova, Monaco, Montenegro, Netherlands, Norway, Poland, Portugal, Romania, San Marino, Serbia, Slovakia, Slovenia, Spain,
- 
-

**FINAL PROVISIONS**

1. When applying for a competition, an organization declares that its activities are in accordance with the following set of principles stated in TEN WAYS FOR Community Foundations to Consider Diversity and Inclusive Practices, Council on Foundations:
  - Consider how diversity and inclusive practices relate to your community foundation’s mission and values and the region and populations the foundation serves.
  - Determine whether your board membership, volunteers, advisory committees, and governance offer opportunities to enhance the foundation’s diversity and inclusiveness.
  - Cultivate an internal culture, policies, and procedures that reflect your foundation’s commitment to diversity and inclusive practices.
  - Invite more diverse donors and perspectives into philanthropy, through new giving vehicles and leadership opportunities.
  - Hire staff from diverse populations, viewpoints, and experiences.

- Seek contractors and vendors from diverse backgrounds, communities, and populations.
- Consider and enhance the impact of your foundation's grantmaking in support of diverse communities and populations.
- Assess how your foundation is perceived by the public, especially diverse populations, grantees, applicants denied funding, and organizations that have not sought funding from your foundation.
- Consider ways to model inclusive practices in your role as a community and philanthropic leader.
- Share what your foundation is learning about diversity and inclusive practices.

More information about those principles can be found here: [link](#).

2. In relation to the ongoing COVID-19 pandemic, the organization undertakes to take appropriate steps to ensure safe conditions during the lifetime of a project, in accordance with applicable laws and regulations.
3. Interpretation of settlements and requirements of the regulations are decided on by ADPP Board.
4. ADPP reserves the right to introduce changes in regulations of the competition during its proceedings. ADPP will inform about possible changes in regulations on a current basis on the website [www.localsolutionsfund.org](http://www.localsolutionsfund.org). If participants do not agree with the changes, they have the right to withdraw their application at the latest on the date of enrolment closure.
