8 DECENT WORK AND ECONOMIC GROWTH

Sustainable Development Goals

SDG 8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all.

Why is it important?

Work should meet our economic needs, enable social interaction and be a place for self-realization. In today's economy there are various barriers to getting a job, but we can deal with some of the difficulties ourselves. Various forms of education or skills courses are helpful, increasing an employee's attractiveness in the labor market. Also, remote work, makes it easier to take up employment away from home and improves opportunities for people who would not otherwise have such an opportunity.

When choosing an employer, it is worth considering companies whose activities fit into the framework of sustainable development. It is also important to know the rights and responsibilities of the employee and the employer. Entrepreneurship and the working conditions in which we operate largely determine the development and innovation of enterprises, and consequently - the strength of the national economy.
