

**LET'S GLOCALIZE – COMMUNITY FOUNDATIONS DRIVEN BY SDGs SPIRIT**

**13 CLIMATE ACTION**

Sustainable Development Goals

**SDG 13: Take urgent action to combat climate change and its impacts.**

**Why is it important?**

Climate change and pollution are among the most important threats to the world. We are seeing increasing extreme weather events, conflicts over water or mass migrations from uninhabitable areas. Unfortunately, average air temperatures continue to increase, as do human-induced greenhouse gas emissions, which are driving climate change.

Education is the key here, as there are still many people who do not know what they can do to combat climate change and its effects.

**ARE YOU A CLIMAT RESCUER?**

**TAKE A TEST!**

Think about the activity your **community foundation** runs, actions and events you organize, projects that you target to local stakeholders ... and answer the questions below:

**YES or NO**

? Do you advocate for the implementation of renewable energy sources in your local community, among local authorities and other stakeholders?

? For the benefit of cleaner air, do you promote the use of public transportation, carpooling opportunities, where possible choosing to travel by train instead of car or plane?

? Do you educate on reducing your carbon footprint?

? Do you promote behaviors that contribute to caring for the environment, i.e. preventing food and water waste, reducing consumption and thus waste production, buying local products that do not require long-distance transportation?

? Do you organize pro-climate actions and activities in your local community?

**THE MORE "YES" YOU TICK, THE GREATER IS YOUR CONTRIBUTION TO THE SDG 13. THE "NO" ANSWERS MAY BE AN INSPIRATION WHAT YOU CAN DO!**

Check the **SDG 13 indicator** in your country [CLICK HERE](#) and find out what the situation is in your local community.
